You can't manage what you can't measure. InData's Business Intelligence practice works with business owners and managers to visualize key performance indicators (KPI) through data science. We help identify and make recommendations on areas that could benefit from deep analysis.

PowerApps
Easily connect to data, use Excel-like expressions to add logic, and run on the web, iOS, and Android devices

Power BI
Make sense of your data through interactive, real-time dashboards and unlock the insights needed to drive your business forward.

Microsoft Flow
Include powerful workflow automation directly in your apps with an approach that connects to hundreds of popular apps and services.

DATA → MODEL → ANALYZE & AUTHOR → DELIVER
